

THE VALUE OF PERFORMANCE.

NORTHROP GRUMMAN

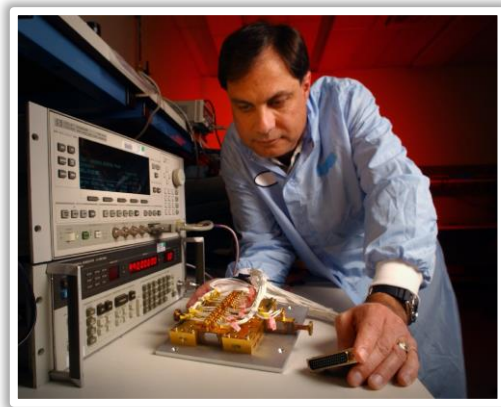

ON-SITE INTERVIEWS

Members from Northrop Grumman's Advanced Concepts & Technology (AC&T) program will be attending the ASC conference from September 4th - September 9th. In addition to attending the various technical sessions we plan to interview at ASC on Wednesday, September 7th and Thursday, September 8th for college and experienced positions. We have a wide range of opportunities for a wide range of skillsets such as Microelectronic Semiconductor Engineers, Physicists and Laboratory Engineers. AC&T is mainly based out of Baltimore, Maryland and is part of Northrop Grumman's Mission Systems Division.

Check us out:

If you are current a student or recently graduated and interested in discussing careers at Northrop Grumman with our AC&T group please apply to our ASC-specific posting at 2017 ASC Conference New Grad Baltimore (AC&T).
